Special Issue:

Submission Deadline: **31 December 2019**

State-of-the-Art On: Vibroacoustics and Sound Radiation Control of Structures

Brief Introduction

This Special Issue is devoted to the publication of original papers about the state-of-the-art on vibroacoustics and sound radiation control of structures, both theoretical and experimental, which provide new information on any aspect of this topic.

Keywords:

- Structural vibration
- Vibroacoustics
- Passive control of sound and vibration
- Active control of sound and vibration
- Mechanical engineering sources of noise and vibration
